week's Guzette.

Mone Country.-The British bark Eastfield, of Liverpool, arrived on Monday last, 78 days from Manila, she having left that port on the 2d of February, under charter to take the Chinese coolies who Sydney Morning Herald of March 4th. Although American Commerce in the Pa- originally embarked on board the Autonio Petronella, which was condemned. The story of the voy-The loss of the American whaleship Daniel age of these coolles, from Hongkong to Manila and which he was privileged with having the first look at, Wood, which is chronicled in another column, this port, is one of no little interest. Originally we, who profess to understand our business of chiting, and the prompt departure on Thursday of Capt. there were one hundred and seventy-eight of them, printing and conducting a newspaper, having been Reynolds in the United States Steamer Lacka- but seven have died, and one, who is represented as wanna to succor the crew who are now on French having been a perfect desperade, committed sal-Frigate Shoal, will attract general attention to cide on the 31st of March by jumping overboard, he Colony of Australia, one of the most thriving and the necessity of having war ships in this ocean; baving somehow got the impression into his head that prosperous of the many eff-shoots of the great Angloand the wisdom of the American Government in he was being taken to Honolulu to be hung for his Saxon family. Simply to show the importance, comproviding a vessel to look after the interests of past misleels. About a fortnight before the bark mercially, of that part of the world, it is enough to American commerce in this remote section will be arrived here, the third mate one morning ordered state that on Saturday, March 2d last, the revenue applauded. The Lackawanna is no doubt here where they slept. The man addressed turned sulto protect American commerce and render such lenly away, but another one seized the broom and swept the dirt into a pile. On being ordered by the It is well known that while English, French officer to take it on deck, he refused and struck him and Russian war ships have been kept cruising with his fist, immediately afterwards running amongst almost constantly throughout this ocean, an the crowd of his countrymen. Such symptoms of American war vessel did not visit one of the mutinous disposition could not of course be allowed groups south and west of us during the war; to pass unpunished, and the officer, going among the while here, where millions of American capital coolies, attempted to arrest the offender, whereupon are affoat in vessels arriving and departing every they all crowded upon him and gave him a severe week, an American war ship was scarcely seen beating with sticks. In fact they would, doubtless, during the four years of the war, the few which have killed him, had not the chief officer, armed touched remaining but a few days. To say the with a cutlass and revolver and accompanied by least, this was a discredit to that Nation, whose some of the crew, jumped promptly to his rescue and commerce and the interests of whose citizens suf- quelled the mutiny. These coolies are said by the officers of the Eastfield to be a particularly hard set, and there were three of them in irons when the ship arrived here. It is reported by the interpreter on some instances, it led to disturbances, which an board that the man who jumped overboard was at the occasional visit of a war ship might have pre-head of a conspiracy to murder the Captain of the vented; as, for instance, quite recently at the vessel in which they originally embarked. It is far-Fijiis, where the steam sloop Tuscarora has been ther said that some of these coolies were conordered to investigate outrages alleged to have cerned in the piracy of the brig Lubra, which occurbeen committed by the natives on Americans. red in August or September, near Hongkong, and The experience of the past few years has killed the Captain in cold blood, and that their leader taught the American people that their commerce having been caught and hung at Hongkong, the needs protection in every sea and every land to confederates escaped and sold themselves to go which it may extend. Acting on this principle, abroad. They have added to their bad name, acis has now powerful fleets stationed in the Medi- cording to the officers of the ship, by "breaking terranean, the North Europe Seas, on the Brazil- cargo," having made way with sundry packages of lian, Chilean and Peruvian Coasts, while at preserved ginger and boxes of eigars during the pasit has for years had war vessels stationed perma- artizans, showing much ingenuity and skill for alat Rio, Valparaiso and Callao, solely to protect ever, are of the class that require strict discipline, under which they may prove serviceable laborers.

The Eastfield has been in 2 ° south latitude, and crossed the line twice during the passage, having experienced a long continuance of light winds and
